

FLOWERS. FLOWER PLACEMAT PROJECT.

MotherGooseCaboose.com

Directions. Print out. Do the activity.

ACTIVITY: Flower, Petal, and Leaf Placemat.

You will need:

1. Clear contac paper, laminating materials, or wax paper.
2. Pressed flowers, petals and leaves.
3. Scissors.

Directions:

Clear Contac Paper Place Mat.

1. For each place mat, cut 2 pieces of clear contac paper, 12" X 18".
2. Peel the backing off 1 piece, and place sticky side up on a table.
3. Place the pressed flowers, petals and leaves onto the contac paper.
4. Peel the second piece and lay it across the first. Note: Practice using contac paper before doing the place mat since contac is a material that is tricky to use.

Laminated Place Mat.

1. Place the pressed flowers, petals and leaves on both sides of an 8 1/2 X 11" piece of paper with double-sided tape or glue. Two pieces of paper can also be used back to back so the flowers show on each side.
2. Laminate.

Wax Paper Place Mat. You will need: 2 pieces of wax paper, 12" X 18" & an iron.

1. Place the pressed flowers, petals and leaves onto a piece of wax paper.
2. Cover it with the second piece and iron until both pieces are fused.
