**All Ages. THANKSGIVING MASK.**

Directions: Print out the mask. Color. Laminate, paste on card stock, or cover with clear contac paper. Cut out the mask and eye holes along the black lines. To make the holes for the mask ties, place the mask on your face and measure on the mask above the ear so the string or yarn will fit over the ear. Punch holes. Tie string or yarn tightly in place through the each hole. Now the mask is ready to wear. Note: If the mask is kept as paper only, tape (masking tape) an ice cream stick in the middle of the inside, between the eyes, and hold the mask by the stick.
