**The Wind**

1st stanza:

I saw you toss the kites on high  
And blow the birds about the sky;  
And all around I heard you pass,  
Like ladies' skirts across the grass -  
O wind, a-blowing all day long,  
O wind, that sings so loud a song!

**kites flying**

2nd stanza:

I saw the different things you did,  
But always you yourself you hid.  
I felt you push, I heard you call,  
I could not see yourself at all -  
O wind, a-blowing all day long,  
O wind, that sings so loud a song!

**leaves blowing**

The Wind cont'd.

3rd stanza:

O you that are so strong and cold,

O blower, are you young or old?

Are you a beast of field and tree,

Or just a stronger child than me?

O wind, a-blowing all day long,

O wind, that sings so loud a song!

- Robert Louis Stevenson (1850-1895).

wind - *n.* A current of air moving at any speed; especially a naturally and perceptible movement of air parallel to or along the ground.

### Wind Facts

The world's winds are caused by unequal air temperatures in different parts of the globe. When air moves along the surface of the earth it is called wind. A wind is really a huge convection current, consisting of sinking cool air and rising warm air. Some of these currents extend only a few miles, others cover thousands of miles
