NAME _____

The Wind

1st stanza:

I saw you toss the kites on high
And blow the birds about the sky;
And all around I heard you pass,
Like ladies' skirts across the grass -
O wind, a-blowing all day long,
O wind, that sings so loud a song!

2nd stanza:

I saw the different things you did,
But always you yourself you hid.
I felt you push, I heard you call,
I could not see yourself at all -
O wind, a-blowing all day long,
O wind, that sings so loud a song!

The Wind cont'd.

3rd stanza:

O you that are so strong and cold,

O blower, are you young or old?

Are you a beast of field and tree,

Or just a stronger child than me?

O wind, a-blowing all day long,

O wind, that sings so loud a song!

- Robert Louis Stevenson (1850-1895).

NAME _____

wind - *n.* A current of air moving at any speed; especially a naturally and perceptible movement of air parallel to or along the ground.

Wind Facts

The world's winds are caused by unequal air temperatures in different parts of the globe. When air moves along the surface of the earth it is called wind. A wind is really a huge convection current, consisting of sinking cool air and rising warm air. Some of these currents extend only a few miles, others cover thousands of miles
